

Since the making of this presentation Photodex, the maker of ProShow Gold and ProShow Producer has closed permanently.

Existing versions will still work but updates etc are no longer available.

Some alternatives to ProShow are shown at the end of the presentation and they all have similar functions.

I have found that Pictures to Exe is the best software for producing AV slideshows.

# CREATING A PROSHOW SLIDESHOW

Workshop presentation by Robin Pitcher – basic workflow and a few tips

# CREATING A PROSHOW SLIDESHOW

1. When you first use **ProShow**, set up **Preferences**.
  - \* Set up the ‘**Appearance**’ to match your computer screen. Eg: 1920ppi
  - \* Set up defaults for slide settings, external editors etc.
2. **Prepare your** photos and save as **jpegs into a separate folder**. Resize the images to 2800 x 2800 @240 ppi. If you know what music you want to use, save it into this folder as well. Do not delete or move this folder or you will not be able to edit or recreate your show.

## Slide List

Title for Unnamed Slides 

The Slide List shows the name for each slide in the list. Names are specified in the Slide Options. When no name has been set, this option specifies what text is displayed.

Slide Style Names  Show applied style name in each slide

## Main Window

- Large toolbar buttons
- Add close button (X) to docked panes
- Allow panes to be dragged/repositioned

## Dialog Size

Slide Options

Show Options

Customize Menu

Wizard

Allowed Sizes  Allow all dialog sizes, regardless of screen resolution

Reset All

## Layer List

 Show image file names instead of layer type for photo/video layers

## Folder List

- Bold folder names
- Show arrows
- Show lines
- Show knobs
- Animate folder expansions
- Show plus signs in folder icons
- Show fixed media volume labels
- Show removable volume labels
- Show volume serial numbers

# CREATING A PROSHOW SLIDESHOW

3. Select **New Show** and set up **title, screen aspect and transition effects.**
4. Widescreen (16:9 ratio) is good for TV and most screens. Keep transitions simple.
5. Add photos to show either:
  - **Add all files to show** or
  - **Drag and drop photos** in the order you wish

## OR - to get started you can use the ProShow Wizard

The screenshot shows a window titled "ProShow Wizard" with a close button in the top right corner. The window has a header with a background image of a sunset and the text "Welcome to the ProShow Wizard". The main content area is split into two columns. The left column contains introductory text and a checkbox. The right column contains a list of links for further information. At the bottom, there is a checkbox and two buttons: "Continue to Wizard" and "Cancel".

**ProShow Wizard**

Welcome to the  
**ProShow Wizard**

The ProShow Wizard automatically picks effects and timing to help you quickly create a show.

You provide the photos, videos, titles and music, and ProShow will automatically apply effects and timing based on the theme you choose. Want to use a specific effect? You can easily pick custom effects for any of your content right in the wizard, or let ProShow choose automatically.

Use the wizard to easily build a quick show or as a starting point for further customization.

Use the **links on the right** to learn more about using the wizard.

Or click the **Continue to Wizard** button to jump right in and get started.

To skip this intro in the future, uncheck the box below.

Show this introduction every time the wizard starts

**Getting Started**  
The quick overview of the ProShow Wizard.

**Photos, Videos, Titles + Music**  
How to add content to your show, and what you can do with that content.

**Themes + Effects**  
Picking a theme and using automatic or custom effects.

**Energy Level and Options**  
Learn about the Wizard's *energy level* and other options.

**After the Wizard**  
See what you can do once your show is created.

**Continue to Wizard** **Cancel**

# Select your transition/s

The screenshot displays the ProShow Gold software interface. At the top, the title bar reads "ProShow Gold - Robin Pitcher - A to Z.psh". The menu bar includes "File", "Edit", "Show", "Slide", "Audio", "Tools", "Publish", "Window", and "Help". The main toolbar contains icons for "New", "Open", "Save", "Wizard", "Add Blank", "Add Title", "Import", "Remix", "Edit Slide", "Effects", "Show Opt", "Music", "Music Library", "Sync Music", and "Publish".

On the left side, there are two panels: "Folder List" and "File List". The "Folder List" shows a tree structure with folders like "A to Z", "A Walk in Prague", "adobe", "Advertising photos", "Amanda", "Amanda & Dale Randwick Races", "Amanda & Nick's Holiday 2016", and "Amanda Hawaii". The "File List" shows various image files such as "download (1).jpg", "download anima...", "download.jpg", "DSC00500.JPG", "elephant 2.jpg", "elephant.jpg", "Emu.jpg", and "Feet.jpg".

The central area is the "Preview" window, which is currently displaying a "Choose Transition" dialog box. The dialog box has a title bar "Choose Transition" and a close button. It shows a preview of the selected transition, "Crossfade (Blend)", with the description "Previous slide fades out." Below the preview, there is a list of "All Categories" (436) including "Favorites" (0), "Basic" (28), "Blocks" (37), "Fly-In and Fly-Out" (12), "Image Adjustments" (7), "Motion 3D" (30), "Page" (16), "Patterns" (76), "Shapes" (42), "Simulations" (13), "Slides and Pushes" (40), "Themed" (13), and "Two-Sided" (20). The "Basic" category is selected, and the "Crossfade (Blend)" transition is highlighted. Other transitions visible include "Crossfade (Blend) - Linear", "Crossfade - Grayscale Blend", "Crossfade - Grayscale High Contrast", "Crossfade - Grayscale Static", "Crossfade - Grayscale Zoom", "Cut (No transition)", "Dissolve - Dip to Black", "Dissolve - Dip to Blue", "Dissolve - Dip to Green", "Dissolve - Dip to Orange", "Dissolve - Dip to Pink", "Dissolve - Dip to Purple", "Dissolve - Dip to Red", "Dissolve - Dip to White", "Dissolve - Dip to Yellow", "Dissolve - Grayscale to Black", "Dissolve - Grayscale to Black - High Contrast", "Dissolve - Grayscale to Black - High Contrast Zoom", "Dissolve - Grayscale to White", and "Dissolve - Grayscale to White - High Contrast".

At the bottom of the dialog box, there is a "Recent" list showing "cut", "A", "B", and "?". There are also "Apply" and "Cancel" buttons.

Below the dialog box, the "Slide List" and "Timeline" are visible. The "Slide List" shows a sequence of slides with transition icons. The "Timeline" shows a green audio waveform for "Track 1 - 19Saint-sans\_CarnivalOfTheAnimals-IntroductionRoyalMarchOfTheLion.mp3". The status bar at the bottom right indicates "Slide 1 of 38 | 1 Layer" and "38 Slides Selected | 269.749 seconds".

Slide 1 of 38 | 1 Layer  
1 Slide Selected | 6.940 seconds

The preview area displays a large green apple. The text "A is for apple" is written in white at the top, and "we all know that" is written in white at the bottom. Below the preview is a playback control bar with a progress indicator at 0:00.00 / 4:29.74. The bottom right corner shows "Slide 1 of 38 | 1 Layer" and "1 Slide Selected | 6.940 seconds".

Slide List Timeline

Slide 1: A is for apple (4.94)

Slide 2: B is a beetle (4.94)

Slide 3: (4.94)

Slide 4: C is a crocodile (4.94)

Slide 5: I'm ready to party (4.94)

Slide 6: (4.94)

Slide 7: (4.94)

The slide list shows thumbnails for seven slides. Slide 1 is highlighted in blue. Each slide thumbnail includes a small 'A to Z' icon and a duration of 4.94 seconds. Below the slide list is a green audio waveform.

# CREATING A PROSHOW SLIDESHOW

## Add Audio:

- ❖ Select music to suit the theme of your show.
- ❖ As a rough guide, you need to allow about 4 seconds per slide plus the transitions.
- ❖ If you use a simple transition (e.g. 'Crossfade blend) you can reduce the time of the transition to 1.5 seconds or less.
- ❖ That means for 40 slides @4 seconds/slide plus a 1.5 second transition, you will need a music soundtrack of about 3.7 minutes.

# Select your sound track/s

The screenshot shows a software interface for audio editing. The main window displays a green audio waveform. An "Open Audio File" dialog box is open, showing a list of audio files. The list includes tracks like "19Saint-sans\_CarnivalOfTheAnimals-IntroductionRoyalMa...", "20Saint-sans\_CarnivalOfTheAnimals-HensCockerels", etc. The interface also shows "Track Settings" and "Soundtrack Tools" on the left side.

**Open Audio File**

# Synchronise the audio to the slideshow length

The screenshot shows the ProShow Gold software interface with the 'Synchronize Show to Soundtrack' dialog box open. The dialog box displays the following information:

- Show Length: 4 min 29 sec.
- Soundtrack Length: 4 min 29 sec.
- Difference: 0.247 sec.

The dialog box includes the following sections and options:

- Which Slides?**
  - Sync all slides in the show
  - Sync only the currently selected slides
- Which Times?**
  - Adjust slide times
  - Adjust transition times
- How to Adjust?**
  - Keep proportions the same as existing times.
  - Make all times the same.
  - Limit transitions to  s or less

The dialog box also includes a 'Select Audio Track' section with a list of tracks:

Track Name	Duration	Track Number
19Saint-sans_CarnivalOfTheAnimals-IntroductionRoyalMa	1 minutes, 48.33 seconds	1
25Saint-sans_CarnivalOfTheAnimals-Aquarium.mp3	1 minutes, 38.13 seconds	2
30Saint-sans_CarnivalOfTheAnimals-Fossils.mp3	1 minutes, 6.88 seconds	3

The background interface shows a folder list on the left, a file list with various images, a preview window, and a timeline at the bottom with two audio tracks: 'Track 1 - 19Saint-sans\_CarnivalOfTheAnimals-Introduction' and 'Track 2 - 25Saint-sans\_CarnivalOfTheAnimals-Aquarium.mp3'.

# Adjust the start and ending times of audio tracks to avoid gaps in the music.

The screenshot displays the ProShow Gold software interface. The main preview window shows a slide with a vibrant kangaroo paw plant against a black background. The text "or a Kangaroo Paw" is overlaid on the bottom right of the slide. The software's interface includes a menu bar (File, Edit, Show, Slide, Audio, Tools, Publish, Window, Help), a toolbar with various editing tools, and a folder/file list on the left. The timeline at the bottom shows two audio tracks: "Track 1 - 19Saint-sans\_CarnivalOfTheAnimals-Introduction" and "Track 2 - 25Saint-sans\_CarnivalOfTheAnimals-Aquarium.mp3". The audio waveforms for both tracks are visible, and a vertical line indicates the current playback position at 1:48.00 / 4:29.74. The slide list shows the current slide is "Slide 1 of 38 | 1 Layer".

## Motion Effects

If you like the effect of slight motion, go to > **slide>effects> motion effects** and adjust zoom by adjusting 'starting' and 'ending' position, N.B. 'Ken Burns' effect. Be careful not to overdo it!

# CREATING A PROSHOW SLIDESHOW

Adjust **slide** and **transition** time as appropriate

Preview show and make any adjustments.

Select **output** for show e.g.: **DVD, PC exe file** etc

Create **Menu** for show or shows

# OUTPUT

It is vitally important to output your show, so that it can be viewed on devices other than your PC or laptop. These are the options offered by ProShow.

The screenshot displays the ProShow Gold software interface. The main window title is "ProShow Gold - Robin Pitcher - A to Z.psh". The menu bar includes File, Edit, Show, Slide, Audio, Tools, Publish, Window, and Help. The status bar indicates "38 slides (4:29.74), 3 audio tracks (4:29.99)".

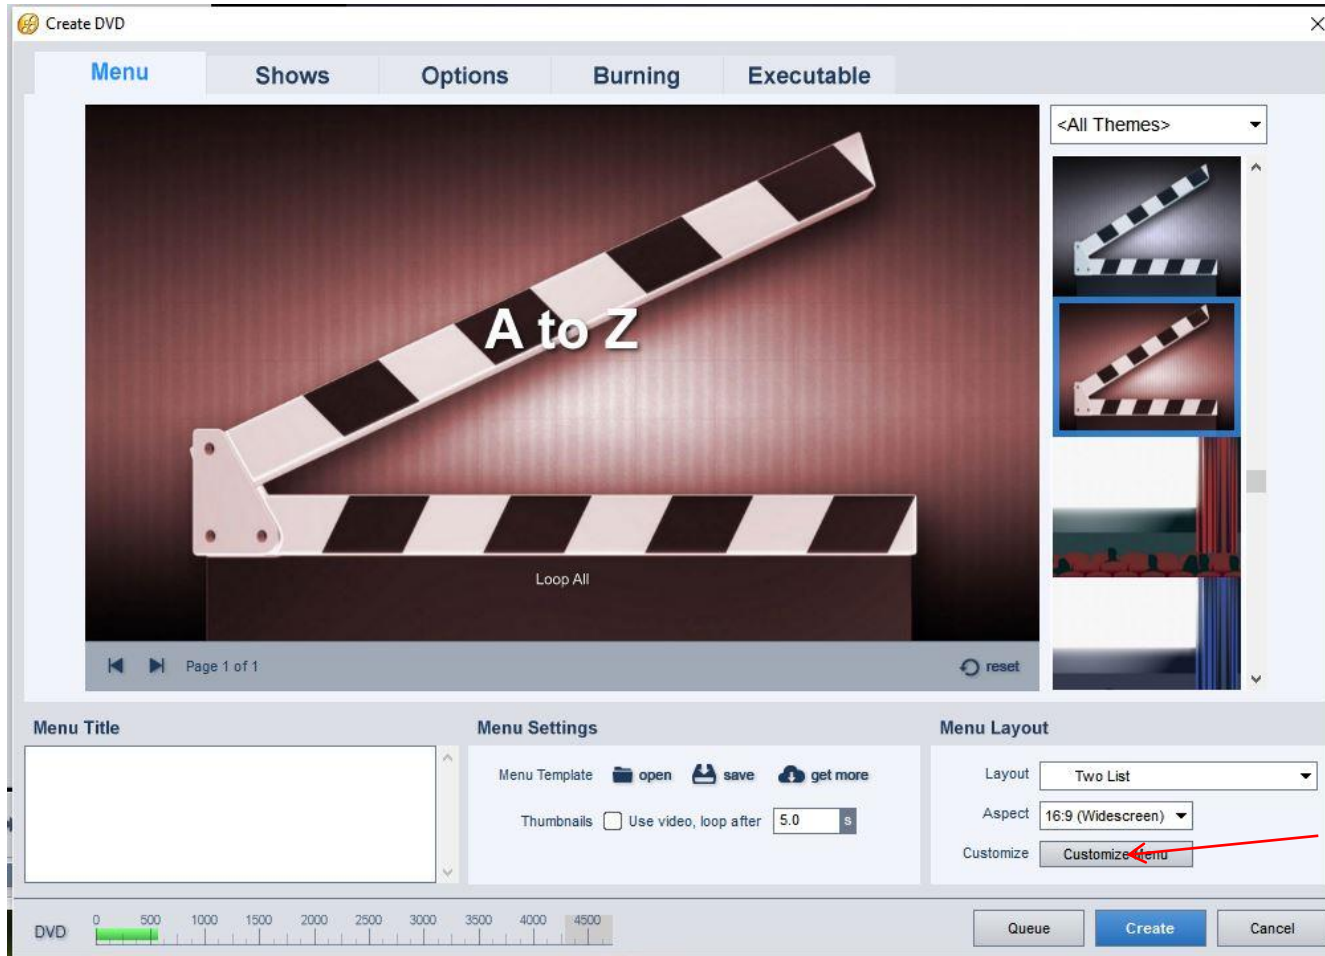

The "Publish Your Show" dialog box is open, showing various output options:

- Televitions:** Blu-ray HD, DVD HD
- Video Files:** AVCHD HD, USB Flash Drive HD, Video File HD for Web and Devices, PROSHOW REMOTE HD
- Share Online:** vimeo HD (Photodex's preferred video destination), Facebook HD, YouTube HD, SmugMug HD
- Televitions (List):** Blu-ray, AVCHD, DVD, USB Flash Drive
- Video Files (List):** For Web or Device, ProShow Remote App, Custom Video File
- Share Online (List):** Vimeo, YouTube, Facebook, SmugMug, HTML5 Video
- PC Playback:** PC Executable, Autorun Disc
- More Options:** Video CD, Flash, ProShow Gallery, ProShow Presenter, E-Mail, Screen Saver

The dialog box also includes a "Cancel" button and a "history queue" section at the bottom. The main window shows a preview of a slide with the text "It is a joy in his mother's pouch" and a timeline at the bottom with slide thumbnails and an audio waveform.

# CREATING A MENU

You can use one of the show templates or customize your own

# CREATING A MENU

Add an image from your files, select your text font and size. Outline and/or add drop shadow. Click 'OK'.

The screenshot displays the 'Customize Menu' application window. The main canvas shows a colorful illustration of various animals: a donkey with a trumpet, a swan, a lion, an elephant with a red blanket, a rooster, a turtle, and a fish. The text 'A to Z' is overlaid on the illustration in a white, bold, sans-serif font with a drop shadow. The interface includes a top navigation bar with 'Settings', 'Layers', 'Captions', and 'Navigation' tabs. On the left, there is a 'Captions on Page' list with options like '(All Pages)', 'Previous', 'Next', 'Play All', 'Loop All', and 'A to Z'. The bottom section contains 'Caption Style' and 'Caption Settings' panels. The 'Caption Style' panel shows 'Font: Arial', 'Font Size: 30', and 'Color' options. The 'Caption Settings' panel includes 'Drop Shadow' (checked), 'Outline' (unchecked), 'Alignment: Left', and 'Position: 50 x 13'. A 'Caption Text' input field is visible on the right. The bottom right corner has 'Ok' and 'Cancel' buttons.

# CREATING A MENU

Add an image from your files, select your text font and size. Outline and/or add drop shadow. Click 'OK'. You can save your menu for further use.

The screenshot shows the 'Create DVD' application window. The 'Menu' tab is active, displaying a preview of a DVD menu. The preview features a colorful illustration of various animals: a donkey playing a trumpet, a swan, an elephant with a red blanket, a lion, a rooster, a turtle, and a fish. The text 'A to Z' is prominently displayed in the center. Below the preview, there are playback controls and a 'reset' button. The interface is divided into three main sections: 'Menu Title' (with an empty text box), 'Menu Settings' (containing 'Menu Template' with 'open', 'save', and 'get more' buttons, and a 'Use video, loop after' checkbox with a '5.0 s' input field), and 'Menu Layout' (with a 'Layout' dropdown set to 'Two List', an 'Aspect' dropdown set to '16:9 (Widescreen)', and a 'Customize Menu' button). At the bottom, a 'DVD' progress bar is visible, along with 'Queue', 'Create', and 'Cancel' buttons. A red arrow points to the 'save' button in the 'Menu Settings' section.

# CREATING A PROSHOW SLIDESHOW

Suggested settings for DVD burning:

# CREATING A PROSHOW SLIDESHOW

## Suggested settings for PC exe file:

The screenshot displays the 'Create Executable' application window, which is divided into three tabs: 'Menu', 'Shows', and 'Options'. The 'Options' tab is currently selected. At the top of the 'Options' tab, there is an information icon and a note: 'Executables are for Windows only. For wider compatibility, consider making a video file.'

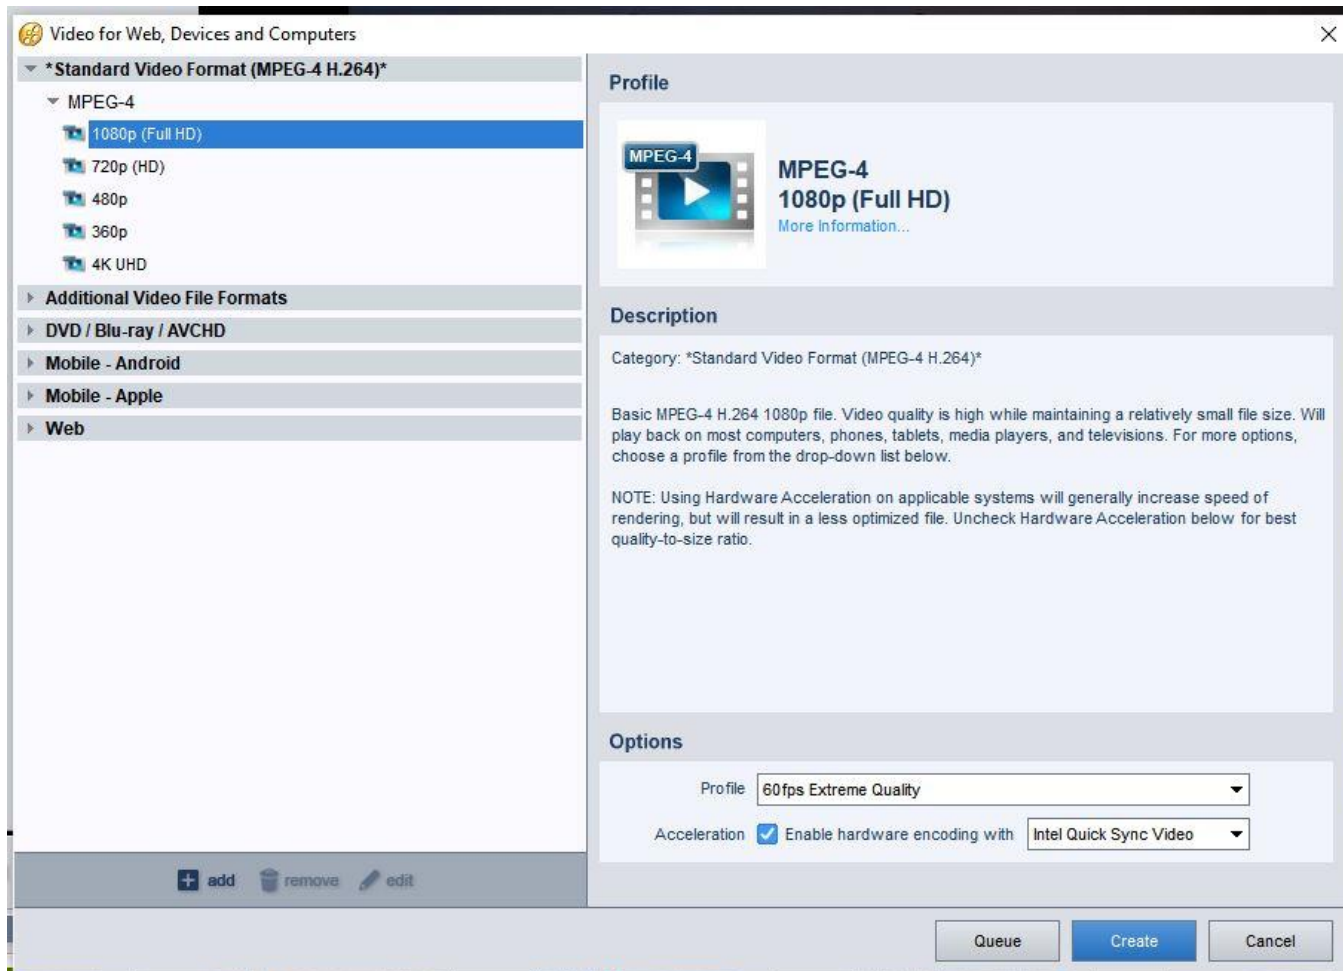

The 'Options' tab is organized into several sections:

- Playback Startup:** This section includes a 'Window Size' field set to '1920 x 1080 px', a 'Full Screen' checkbox which is checked with the label 'Start playback fullscreen', and a 'Loop Show' checkbox which is unchecked with the label 'Loop show forever (when no menus)'.
- Quality:** This section features a 'Image Quality' slider set to '100 %', a 'Video Quality' slider set to 'Medium', and a 'Software Fallback' field set to '1024 x 600 px' with the text 'maximum resolution' next to it.
- On-Screen Controls:** This section has a 'Show Controls' checkbox which is checked, labeled 'Enable on-screen playback controls'. Below it is a descriptive text: 'This option enables and disables the on-screen toolbar for pausing, resuming, seeking and adjusting volume.'
- Protection:** This section includes a 'Limit By Days' checkbox (unchecked) with a sub-field for 'Limit days of usage' set to '15 days', and a 'Limit By Runs' checkbox (unchecked) with a sub-field for 'Limit number of runs' set to '10 runs'. Below these are three text input fields: 'Password', 'Info URL', and 'Info Link Text'. The 'Info URL' and 'Info Link Text' fields have explanatory text below them: 'Allow the user to unlock the show with this password. Leave blank for no unlock prompt.' and 'When your executable expires, a user will see this text and may click it to visit the URL specified above.'

At the bottom of the window, there is a progress bar labeled 'EXE' with a scale from 0 to 70. To the right of the progress bar are two buttons: 'Create' and 'Cancel'.

# CREATING A PROSHOW SLIDESHOW

## Settings for a video file

# CREATING A PROSHOW SLIDESHOW

16. There are many other options to use in ProShow:

- Add blank slides with text
- Use **slide styles**
- Specify the **slide timing** of any slide and lock it in.
- Use different **backgrounds**, either an image or different colours. There is also an built in **Background** file to select from.
- You can add layers to a slide with different motion effects

Some Examples of different slide styles and transitions. Obviously you wouldn't put them altogether like this.

# CREATING A PROSHOW SLIDESHOW

This software slideshow program can only be purchased online at:

<http://www.photodex.com/>

**It is available by download only.**

**Current cost: usd\$69.95, approx. aud\$90 (at 18/4/18)**

**After purchasing on-line, Photodex sends the purchaser an email with the full Registration details. This enables the purchaser to download the software again at any time. The software can also be downloaded to any computers the purchaser owns as long as it is not for commercial purposes.**

## OTHER SLIDESHOW PROGRAMS

- ❖ Windows Movie Maker - free
- ❖ Pictures to exe.
- ❖ Movavi Slideshow Maker
- ❖ Photostage Slideshow Maker

There are many others but always try the free download before purchasing.
